## Start Your Nursing Journey in Space City

We're so glad you're considering moving to Houston to start your accelerated nursing journey at the University of St. Thomas Houston. We know the decision to enroll in an Accelerated Bachelor of Science in Nursing (ABSN) program is a big one, and you have many options to consider.

While committing to our program may be a clear choice, we know questions like, "Where should I live?", "What is there to do here?" and "What are my job prospects after graduation?" might make it more complicated to commit to a new city. Well, we thought about those questions, too, and put all the answers here to help make your potential move to Houston for nursing school as seamless as possible.

We think after reviewing this guide, you'll come to the same conclusion we did: **there's no better place to become a nurse than here.** After all, Houston is known as "the city with no limits"; as a graduate of our program, there's no limit to where you can go with your nursing education.

*Houston has many nicknames, however its one official nickname is "Space City", a call-out to its dedication to space exploration and historical role as a hub for the National Aeronautics and Space Administration (NASA). You also may see the city referred to as H-Town, the Big Heart and the Bayou City.*

Described as having a down-home vibe, it's also a great place for you to kick off a lucrative career in nursing. The annual mean wage for RNs in the region was \$81,350 as of May 2019, according to the U.S. Bureau of Labor Statistics.

## Make Yourself at Home

**Between the year-round comfortable climate**, myriad neighborhoods from which to choose and the welcoming atmosphere, it'll be a breeze to make Houston feel like home. Plus, moderately-priced living costs don't hurt either!

The median home sale price in Houston remains on the lower side compared to other similar metro areas, and the overall cost of living in Houston is lower than the national average. Your paycheck will also go further in Houston than it would in other major metro areas, with affordable housing and free or cheap attractions like biking along Buffalo Bayou and exploring the 7,800-acre George Bush Park.

The affordability of this southeastern Texas region is home to more than 7 million residents in the metro area, and it is continually attracting new people from across the country and around the world.

The C2ER Cost of Living Index for the third quarter of 2020 also shows that Houston has the second lowest cost of living among the nation's 20 most populous metropolitan areas. Houston's overall after-taxes living costs are 4.2 percent below the average for all 277 urban areas participating in the survey.

Housing costs are low, too. Among the nation's 20 most populous metro areas, Houston's housing costs are 51.2 percent below the average and 11.5 percent below the average for all U.S. metros. Excluding the two most expensive housing markets, New York and San Francisco, Houston's costs remain lower than the majority, with housing costs at 40.4 percent below the major metro average.

# Houston: The Big Heart of Healthcare

**They say everything is bigger in Texas,** and the healthcare scene is no exception. Our ABSN program will prepare you for a career in the healthcare field, and where better to do that than the largest medical center in the world, located right here in Houston?

The Texas Medical Center (TMC) has more than 106,000 employees, 61 institutions and thousands of volunteers and patient visits, so it's no surprise more than 160,000 people visit Texas Medical Center each day. Over the course of the year, the campus welcomes more than 7.2 million visitors. Put simply: Houston is where the world comes for treatment.

The center sees patients who come from across the country and all over the world to receive care from the best doctors in their field. TMC also has eight different academic and research institutions, as well as 21 different hospitals.

TMC is home to the renowned M.D. Anderson Cancer Center, the No. 1 cancer hospital in the world.

During your time in our program, you might even be able to do your clinical rotations at the TMC. While we cannot guarantee placements, the TMC is a hub of exciting healthcare advancements and a great place to grow and learn.

## Other major Institutions include:

- Texas Children's Hospital, tied for the No. 3 children's hospital in the nation
- Baylor College of Medicine
- Houston Methodist Hospital
- St. Luke's Health
- Memorial Hermann-Texas Medical Center
- The Texas Heart Institute
- University of Texas Health Sciences Center

### **Pioneers in Medicine**

Pioneering medical discoveries and procedures in cardiac care and organ transplants, space medicine, spinal cord surgery and the decoding of the human DNA genome, which is leading to a new era of personalized medicine, all occurred in Houston, so as an ABSN student you'll be in the right place.

TMC also is an easy access point from virtually any place in the city, making it easy to commute. Houston's MetroRail Red line, which you'll learn more about later in this document, runs right through the center of TMC, making it easy for people to travel from the campus to Downtown, the Museum District, NRG Park and other parts of the city.

*More heart surgeries are performed in the TMC than anywhere else on the globe.*

### **Notable Rankings**

An annual survey conducted by *U.S. News and World Report* on "America's Best Hospitals" has ranked at least one Texas Medical Center institution in all 19 categories of care for adults and all 10 care categories in pediatrics.

### **TMC Library**

Houston is home to the second-largest medical library, where visitors can view rare books and special collections, such as the records of the Atomic Bomb Causality Commission and NASA Space Life Sciences Archives.

*In Houston, it's always a beautiful day in the neighborhood, and there are plenty of welcoming neighborhoods from which to choose! Here are a few of our favorites.*

## The Woodlands

### The Woodlands

The Woodlands is well known in Houston for its abundance of parks and recreation, golf, corporate headquarters, schools, places of worship, shopping, dining, hospitality, healthcare and 220 miles of hike and bike trails.

The **Woodlands Mall** holds more than 160 stores and restaurants, and, if you walk across the street, you can enjoy **Waterway Square** to find entertainment and even more dining options. The restaurants range from pizza places to fine-dining establishments. There are also a few bars sprinkled throughout the area. You can also check out the **Riva Row Boat House**, which offers kayaks to patrons to tour the Woodlands Waterway and Lake Woodlands.

Also in this neighborhood is **North Shore Park**, where you can enjoy the playground and picnic area, complete with picnic tables and barbecues. This park also features a boat launch point into Lake Woodlands as well as a fishing area open to the public. If the water isn't your thing, you can enjoy the open playing field or the basketball court. Every Sunday there is also a free Concert in the Park that helps promote local musicians.

# Conroe and Houston Heights

## Conroe

Living in Conroe, just north of The Woodlands, offers residents a suburban feel. Here, most residents own their homes and enjoy convenient access to parks and highly rated public schools.

Three fantastic microbreweries are also in Conroe. **Southern Star**, **B52's**, and **Copperhead** breweries are all wonderful spots to enjoy fresh cold beers while enjoying great entertainment on the weekends. Live music and games are available for your enjoyment as well.

## Houston Heights

Northwest of Downtown is a section of historic neighborhoods that date back to the late 1800s. Full of character, Houston Heights is home to diverse Houstonians that love its rich and character-filled architecture, mom- and pop-type shops and funky restaurants.

Elsewhere around the neighborhood, you can spend a day exploring at one of **19th Street's boutiques**, where you're sure to find something unique. Thrift stores, antique havens and cafes prove to be popular at the Heights-strip. Stop by for the **"First Saturday Arts Market"** on the first Saturday of each month for live music, crafts, plants and artwork.

# Montrose and Galleria / Uptown

# Cuisine

## You won't go hungry in Houston!

With 10,000 restaurants representing cuisine from more than 70 countries and American regions, Houston's restaurant scene is as exciting and diverse as its residents.

Houston was even named the "newest capital of great food" by *Food & Wine Magazine* and the country's most exciting food city by *Tasting Table* magazine. But why take their word for it? Try a few of our favorites for yourself.

**Riel** highlights local flavors by utilizing regionally sourced products and allowing room for interpretation. Inspiration for the menu is pulled from the culinary landscape of Texas' gulf coast, Lachaine's Ukrainian heritage and French-Canadian fare.

**State of Grace** is housed in the Lamar-River Oaks Shopping Center and offers old favorites played with new spice, accent and freshness: Southern, American, Latin, Gulf Coast, German and Asian options can be found on the menu.

**Bollo** is located in Upper Kirby, serving authentic Neapolitan pizza baked in an 800-degree wood fired oven. The menu also includes small shareable plates, salads, entrées and desserts.

**Golden Dumpling House** is an Asiatown staple and an excellent choice for traditional dumplings by the plateful. Step up to the cash-only counter and get them boiled, steamed or fried, along with an assortment of noodle dishes and cold appetizers.

**Vital Kitchen** delivers pre-made meals designed for food-savvy and health-conscious Houstonians.

# Find Your Way

**Getting around Houston** may seem overwhelming, but it's much easier when you break it down and learn the local terminology. We'll have you zooming around the city like a local in no time.
